___ Yes ___ No

ESI-ID This stands for Electric Service Identifier and should be identified on your electric bill. The ESI ID is a 17 digit number where the first 10 digits for customers served from the Oncor service territory will begin with 1044372000 (Oncor company code) followed by 7 more digits called the Premise ID# (total 17 digits). Oncor’s territory also includes the former SESCO service territories beginning with 1017699000 as the first 10 digits followed by the 7 digit Premise ID#. It is recommended to include a copy of the customer’s electric bill if available with applications to verify the correct address and ESI ID.

Oncor Meter Numbers

Numbers are usually 8 digits or 9 digits long. Oncor will also need meter manufacturer (for example GE, SA, WE, LG)
